* These features are unique to the Saygus V SQUARED. **Sunlight Viewable Screen** allows you to watch videos, TV or movies outside with excellent screen visibility; **Expandable memory 800GB** for music, video, movies, and picture storage that is unparalleled on the market today; **USB Host** with multi-connectivity capability for mouse, keyboard, jump drive, joystick, medical/engineering/construction/business devices; **Battery Life**: with an extended power savings chip the V SQUARED sports long battery life; Wi-HD **Wireless HD** beaming allows the user to connect the V SQUARED to the TV, and cast games and videos to the big screen; **OEM Unlocked** – programmers have access to much of the OS allowing apps and programs to be written on the V SQUARED without prior permission from Saygus or Google. This is not the case with all other smartphones; **Power Button** location is the first to provide easy power access to both large and small hands; **External Speakers** are forward facing dual high fidelity stereo; **FM Receiver** lets the V SQUARED owners tune in to their local radio stations; **Large Viewable Screen to Phone Size Ratio** means that the V SQUARED has a small footprint because of its nearly edge to edge 5 inch screen area.

YOUR **DREAM** HAS COME TRUE

Be among the first to own the **Saygus V SQUARED**
